

13th & 16th Street Light Rail Station Improvement Project

Fact Sheet

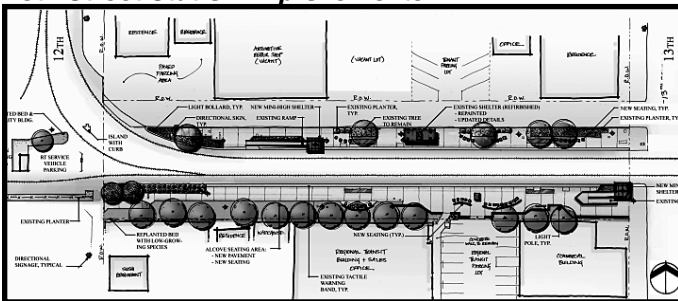

The Sacramento Regional Transit District (RT), Capitol Area Development Authority (CADA) and the City of Sacramento have partnered to improve the 13th & 16th Street light rail stations.

This project will renovate and enhance pedestrian and passenger connectivity to the 13th Street and 16th Street light rail stations, which are within the R Street Corridor redevelopment area. The total project cost is estimated at \$1,883,000. RT, CADA and the city of Sacramento have received a grant for \$1,693,000 from the Sacramento Area Council of Governments (SACOG) Community Development Grants program. The grant is administered by the California Transportation Commission (CTC) and the California Department of Transportation (Caltrans). Of the \$190,000 local funds, \$90,000 will come from CADA tax increment revenues, and \$100,000 is being contributed by RT from Measure A funds.

RT will implement the light rail portion of the project, estimated to cost \$988,000. RT has hired Callander Associates, Inc. Landscape Architects, in association with Zeiger Engineers, Inc. (electrical) and Wallace Kuhl & Associates, Inc. (geotechnical), for the final design phase.

Scope of Work

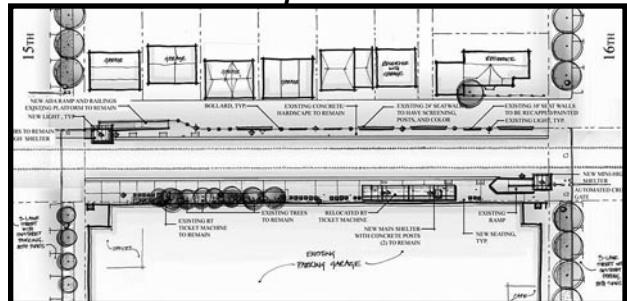

13th Street Station Improvements

13th Street Station:
