INDEPENDENT AUDITOR'S REPORT

Members of the Board of Directors
Sacramento Regional Transit District
Sacramento, California

We have audited the accompanying statement of plan net assets of the Retirement Plans for Sacramento Regional Transit District Employees (the Plans) as of June 30, 2010, and the related statement of changes in plan net assets for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The accompanying statements of the Plans as of and for the year ended June 30, 2009 were audited by other auditors, whose report dated December 2, 2009, expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net assets as of June 30, 2010, and the changes in plan net assets for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Schedules of Funding Progress and Schedules of District Contributions, as listed in the accompanying table of contents, are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Plans have not presented Management's Discussion and Analysis, which accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not required to be part of, the basic financial statements.

2880 Gateway Oaks Drive, Suite 100 • Sacramento, CA 95833
101 Parkshore Drive, Suite 100 • Folsom, CA 95630
Phone: 916.646.6464 • Fax: 916.929.6836 • gilbertcpa.com

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The accompanying Combining Statements and supplemental Schedules of Investments and Administrative Expenses are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The 2010 Combining Statements and 2010 Schedules of Investment and Administrative Expenses have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Net assets held in trust for pension benefits - End of fiscal year	$ 164,392,351	$ 144,834,209

The accompanying notes are an integral part of these financial statements.

1. DESCRIPTION OF THE PLANS

ATU/IBEW Plan

The Retirement Plan for Sacramento Regional Transit District Employees who are Members of Amalgamated Transit Union (ATU) Local 256 and International Brotherhood of Electrical Workers (IBEW) Local 1245 (the ATU/IBEW Plan) is a noncontributory single employer defined benefit pension plan covering contract employees of Sacramento Regional Transit District (the District). Participants should refer to their respective ATU/IBEW Plan agreements for more complete information. The ATU/IBEW Plan is reported as a pension trust fund in the District's financial statements.

General - The ATU/IBEW Plan provides defined pension, disability, and death benefits to employees who are members of the ATU and IBEW. ATU members' benefits are fully vested after ten (10) years. IBEW employees fully vest after five (5) years of service. Membership in the Plan commences upon the first day of the month following employment. Contributions to the ATU/IBEW Plan are authorized or amended by the Retirement Board based on a sound actuarial basis. The authority under which benefit provisions are established and amended rests with the District's Board of Directors as a result of labor negotiations. Assembly Bill 1064, effective January 1, 2004, mandates that the Retirement Boards be comprised of equal representation of management and Bargaining Group employees. The Retirement Board shall consist of not more than 4 members and 2 alternates. Two (2) voting members and one (1) alternate shall be appointed by the District's Board of Directors and two (2) voting members and one (1) alternate shall be appointed by the ATU and IBEW member groups.

ATU/IBEW Plan membership at June 30, consisted of:

	2010	2009
Retirees and beneficiaries currently receiving benefits	431	363
Terminated members entitled to but not yet collecting benefits	39	44
Current active members	663	785
	1,133	1,192

Retirement Benefits – A participant is eligible for normal service retirement under the ATU/IBEW Plan upon attaining age 55 and completing 10 or more years of service for ATU employees and completing 5 or more years of service for the IBEW employees.

In addition, ATU and IBEW members are eligible to retire upon reaching 25 or more years of service. The normal service retirement benefit is the greater of the benefit accrued under the ATU/IBEW Plan provisions in effect on February 28, 1993 or the participant's benefit under the current Plan provisions. Under the current ATU/IBEW Plan provisions, the participant receives a percentage of the average final earnings, as defined, multiplied by the participant's service at retirement. The percentage for IBEW members is equal to: a) 2.0%, if the participant retires prior to age 60, or b) 2.5%, if the participant terminates or retires on or after age 60, or after earning at least 30 years of service.

1. DESCRIPTION OF THE PLANS (Continued)

The percentage for ATU members is as follows:

Age/Service	Benefit
55 or 25 years	2.00%
56 or 26 years	2.10%
57 or 27 years	2.20%
58 or 28 years	2.30%
59 or 29 years	2.40%
60 or 30 (or more) years	2.50%

The benefits begin at retirement and continue for the participant's life with no cost of living adjustment unless the participant elects to receive reduced benefits with continuing benefits to a beneficiary after death.

Disability Benefits – A participant is eligible for a disability benefit if the participant is unable to perform the duties of his or her job with the District, cannot be transferred to another job with the District, and has submitted satisfactory medical evidence of permanent disqualification from his or her job. Members of the ATU are required to have ten years of service and members of the IBEW are required to have at least 5 years of service to qualify for disability. The disability benefit is equal to the retirement allowance, as defined by the ATU/IBEW Plan, multiplied by service accrued through the date of disability. The disability benefit cannot exceed the retirement benefit. The benefit begins at disability and continues until recovery or for the participant's life unless the participant elects to receive reduced benefits with continuing benefits to a beneficiary after death.

Pre-Retirement Death Benefit – A participant's surviving spouse is eligible for a pre-retirement death benefit if the participant is vested. The pre-retirement death benefit is the actuarial equivalent of the normal retirement benefit, as if the participant retired on the date of death. The death benefit begins when the participant dies and continues for the life of the surviving spouse or until remarriage.

Administration – The ATU/IBEW Plan is administered by the ATU/IBEW Plan's Retirement Board. All expenses incurred in the administration of the ATU/IBEW Plan are paid by the ATU/IBEW Plan.

Plan Termination – Should the ATU/IBEW Plan be terminated, the ATU/IBEW Plan's net assets will first be applied to provide for retirement benefits to retired members. Any remaining net assets will be allocated to other members, oldest first, on the basis of the actuarial present value of their benefits.

1. DESCRIPTION OF THE PLANS (Continued)

Salaried Plan

The Retirement Plan for Sacramento Regional Transit District Salaried Employees (the Salaried Plan) is a noncontributory single employer defined benefit pension plan covering full or part-time employees in an authorized non-contract salaried job classification of the District. Participants should refer to the Salaried Plan agreement for more complete information. The Salaried Plan is reported as a pension trust fund in the District's financial statements.

General - The Salaried Plan provides defined pension, disability, and death benefits to salaried employees. Membership in the Salaried Plan commences the first day of the month following employment. Members' benefits are fully vested after five or nine years. Members of the Administrative Employees' Association (AEA), non-representative salaried employees, and the Management and Confidential Employees' Group (MCEG) fully vest when a member has at least 5 years of service. Members of the American Federation of State, County & Municipal Employees, Local 146, AFL-CIO (AFSCME) are vested as follows:

Years of Service	Percentage Vested
5	20%
6	40%
7	60%
8	80%
9 or more	100%

Contributions to the Salaried Plan are authorized by the Retirement Board based on a sound actuarial basis. The authority under which benefit provisions are established and amended rests with the District's Board of Directors as a result of labor negotiations. Assembly Bill 1064, effective January 1, 2004, mandates that the Retirement Board be comprised of equal representation of management and salaried employees. The Retirement Board shall consist of not more than 4 members and 2 alternates. Two voting members and one (1) alternate shall be appointed by the District's Board of Directors and two (2) voting members and one (1) alternate shall be appointed by the AEA, MCEG, and AFSCME.

Salaried Plan membership as of June 30, consisted of:

	2010	2009
Retirees and beneficiaries currently receiving benefits	188	160
Terminated members entitled to but not yet collecting benefits	65	60
Current active members	232	287
	485	507

1. DESCRIPTION OF THE PLANS (Continued)

Retirement Benefits – A participant of AEA and MCEG is eligible for normal service retirement upon attaining age 55 and completing 5 years of service. A participant of AFSCME is eligible for the normal service retirement upon attaining age 55 and completing 9 years of service. The normal service retirement benefit is the greater of the benefit accrued under the plan provisions in effect on February 1, 1994, or the participant's benefit under the current plan provisions. Under the current plan provisions, AEA, MCEG and AFSCME participants receive a percentage of the average final earnings, as defined, multiplied by the participant's service at retirement as follows:

Age/Service	Benefit
55 or 25 years	2.00%
56 or 26 years	2.10%
57 or 27 years	2.20%
58 or 28 years	2.30%
59 or 29 years	2.40%
60 or 30 (or more) years	2.50%

The benefits begin at retirement and continue for the participant's life with no cost of living adjustments unless the participant elects to receive reduced benefits with continuing benefits to a beneficiary after death.

Disability Benefits – A participant is eligible for a disability benefit if the participant is unable to perform the duties of his or her job with the District, cannot be transferred to another job with the District, and has submitted satisfactory medical evidence of permanent disqualification from his or her job. Members of the AEA, non-representative salaried employees, and MCEG are eligible for disability retirement after 5 years of service. Members of the AFSCME are eligible for disability retirement after 9 years of service. The disability benefit is equal to the retirement allowance, as defined by the Salaried Plan, multiplied by service accrued through the date of disability. The disability benefit cannot exceed the retirement benefit. The benefit begins at disability and continues until recovery or for the participant's life unless the participant elects to receive reduced benefits with continuing benefits to a beneficiary after death.

Pre-Retirement Death Benefit – A participant's surviving spouse is eligible for a pre-retirement death benefit if the participant has completed nine years of service with the District. The pre-retirement death benefit is the actuarial equivalent of the normal retirement benefit, as if the participant retired on the date of death. The death benefit begins when the participant dies and continues for the life of the surviving spouse or until remarriage.

Administration – The Salaried Plan is administered by the Salaried Plan's Retirement Board. All expenses incurred in the administration of the Salaried Plan are paid by the Salaried Plan.

Plan Termination – Should the Salaried Plan be terminated, plan net assets will first be applied to provide for retirement benefits to retired members. Any remaining net assets will be allocated to other members, oldest first, on the basis of the actuarial present value of their benefits.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The ATU/IBEW and Salaried Plans are reported as pension trust funds which report resources that are required to be held in trust for the members and beneficiaries of the defined benefit pension plans. The ATU/IBEW and Salaried Plans are accounted for on the flow of economic resources measurement focus and the accrual basis of accounting.

The ATU/IBEW and Salaried Plans have adopted Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as their source of accounting and reporting principles. The District's contributions to the ATU/IBEW and Salaried Plans are recognized in the period in which the contributions are due pursuant to formal commitments or contractual requirements. Benefits and refunds are recognized when due and payable in accordance with the ATU/IBEW and Salaried Plans' agreements.

Cash and Short-Term Investments – The ATU/IBEW and Salaried Plans consider all highly liquid investments with a maturity of three months or less to be short-term investments.

Investments – Investments are stated at fair value based on quoted market prices (or, if not available, at estimated fair value determined by third-party pricing services). Realized gains or losses on the sale of investments are recorded on the trade date as the difference between proceeds received and the fair value at the beginning of the year, or cost if acquired during the year. Net appreciation (depreciation) in fair value of investments includes net unrealized market appreciation and depreciation of investments and net realized gains and losses on the sale of investments during the period. Interest income includes dividends and interest paid on the ATU/IBEW and Salaried Plans' investments.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the ATU/IBEW and Salaried Plans administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Reclassifications – Certain amounts presented in the 2009 financial statements have been reclassified in order to be consistent with the 2010 presentation. For the fiscal year ending June 30, 2010, the investment assets for the ATU/IBEW and the Salaried Plans were combined into one commingled investment portfolio. The balances of investments owned by the plans are calculated based on a percentage of ownership as determined by the Plans' custodian, State Street.

3. CONTRIBUTION REQUIREMENTS

The ATU/IBEW and Salaried Plans' funding policy provides for actuarially determined periodic contributions. Contribution rates for retirement benefits are determined using the entry age normal cost method. During the fiscal years ended June 30, 2010 and June 30, 2009, the District made 100% of the actuarially determined contributions to the ATU/IBEW and Salaried Plans of $11,694,384 and $10,757,070, respectively. For the fiscal year ended June 30, 2010, the actuarially determined rate for the ATU/IBEW Plan was 17.83% of covered payroll. For the fiscal year ended June 30, 2009, the actuarially determined rate for the ATU/IBEW Plan was 16.30% of covered payroll. For the fiscal year ended June 30, 2010, the actuarially determined rate for the Salaried Plan was 19.95% of covered payroll. For the fiscal year ended June 30, 2009, the actuarially determined rate for the Salaried Plans was 17.97% of covered payroll. No contributions are required by the ATU/IBEW and Salaried Plans' members pursuant to each respective bargaining agreement; however, ATU/IBEW Plan members can buy-back service. For the fiscal year ended June 30, 2009, one member purchased service, which has been reflected in the statement of changes in plan net assets as plan member contributions.

4. CASH AND INVESTMENTS

CASH AND SHORT-TERM INVESTMENTS

At June 30, 2010 and 2009, the reported amount of cash and short-term investments of the ATU/IBEW and Salaried Plans was $8,665,647 and $6,916,504, respectively. The amount was collateralized with securities held by the counterparty's trust department or agent in the District's name.

INVESTMENTS

An annual Board-adopted policy, the Statement of Investment Objectives and Policy Guidelines for ATU/IBEW and Salaried Employees' Retirement Funds (Policy), governs the ATU/IBEW and Salaried Plans' investments. This Policy focuses on the continued feasibility of achieving, and the appropriateness of, the Asset Allocation Policy, the Investment Objectives, the Investment Policies and Guidelines, and the Investment Restrictions.

All of the ATU/IBEW and Salaried Plans' investments are reported at fair value measured by quoted market prices.

The table below identifies the investment types that are authorized by the ATU/IBEW and Salaried Plans' Retirement Boards. The table also identifies certain provisions of the Investment Objectives and Policy that address interest rate risk, credit risk and concentration of credit risk.

Authorized Investment Type	Maximum Maturity (1)	Minimum Rating	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Municipal Debt	None	Baa	None	None
U.S. Treasury Obligations	None	N/A	None	None
U.S. Agency Securities	None	N/A	None	None
Bankers' Acceptances	None	N/A	None	None
Commercial Paper	None	A2	None	None
Certificates of Deposit	None	N/A	None	None
Repurchase Agreements with US Treasury and Agency Securities as Collateral	None	N/A	None	None
Corporate Bonds	None	Baa	None	None
Mortgage Pass-Through Securities	None	None	None	None
Collateralized Mortgage Obligations	None	Aaa	None	None
Asset Backed Securities	None	None	None	None
Mutual Funds	N/A	N/A	25% (2)	5%
Real Estate Investment Trust	N/A	N/A	25% (2)	5%
Depository Receipts	N/A	N/A	25% (2)	5%
Stocks	N/A	N/A	25% (2)	5%

(1) The fixed income portion of the ATU/IBEW and Salaried Plans shall be limited in duration to between 75% and 125% of the Barclays Capital Aggregate Bond index.

(2) No more than 25% of the fair value on the purchase cost basis of the total common stock portfolio (equity securities) shall be invested in a single industry at the time of purchase.

4. CASH AND INVESTMENTS (Continued)

INVESTMENT RISK FACTORS

There are many factors that can affect the value of investments. Such factors as interest rate risk, credit risk, custodial credit risk, concentration of credit risk, and foreign currency risk may affect both equity and fixed income securities.

INTEREST RATE RISK

Interest rate risk is the risk that the value of fixed income securities will decline because of rising interest rates. The prices of fixed income securities with a longer time to maturity, measured by duration, tend to be more sensitive to changes in interest rates and, therefore, more volatile than those with shorter duration.

The following table provides information about the interest rate risks associated with the ATU/IBEW and Salaried Plans' investments at June 30, 2010.

	Maturity in Years				
	Less than 1	1 – 5	6 – 10	More than 10	Fair Value
Collateralized mortgage obligations	$ -	$ 169,899	$ 35,518	$ 13,435,479	$ 13,640,896
Corporate bonds	686,300	5,114,928	5,210,352	4,494,959	15,506,539
Municipal bonds				449,712	449,712
U.S. Government Agency obligations	-	-	47,518	13,581,329	13,628,847
U.S. Government Issued obligations	-	10,289,433	2,049,210	3,777,030	16,115,673
Asset backed securities	188,833	511,419	264,831	4,745,897	5,710,980
Total	$ 875,133	$ 16,085,679	$ 7,607,429	$ 40,484,406	$ 65,052,647

The following table provides information about the interest rate risks associated with the ATU/IBEW and Salaried Plan's investments at June 30, 2009.

	Maturity in Years				
	Less than 1	1 – 5	6 – 10	More than 10	Fair Value
Collateralized mortgage obligations	$ -	$ -	$ 220,917	$ 12,905,663	$ 13,126,580
Corporate bonds	928,457	5,312,809	6,377,823	2,739,295	15,358,384
U.S. Government Agency obligations	-	-	69,409	19,064,760	19,134,169
U.S. Government Issued obligations	-	809,842	508,711	2,317,482	3,636,035
Asset backed securities	105	845,134	251,843	4,110,870	5,207,952
Total	$ 928,562	$ 6,967,785	$ 7,428,703	$ 41,138,070	$ 56,463,120

In accordance with the ATU/IBEW and Salaried Plans' investment policy, investments may include mortgage pass-through securities, collateralized mortgage obligations, asset-backed securities, callable bonds and corporate debts that are considered to be highly sensitive to changes in interest rates.

4. CASH AND INVESTMENTS (Continued)

COLLATERALIZED MORTGAGE OBLIGATIONS

Collateralized mortgage obligations (CMO's) are bonds that represent claims to specific cash flow from large pools of home mortgages. The streams of principal and interest payments on the mortgages are distributed to the different classes of CMO interests.

CMO's are often highly sensitive to changes in interest rates and any resulting change in the rate at which homeowners sell their properties, refinance, or otherwise pre-pay their loans. Investors in these securities may not only be subjected to such prepayment risk, but also exposed to significant market and liquidity risks.

CORPORATE DEBT – RANGE NOTES

Range notes are securities which pay two different interest rates depending on whether or not a benchmark index falls within a pre-determined range as structured per the note. If the benchmark index rate does not fall within the pre-determined range, the note will not earn the coupon rate for that time period. With this pre-determined range feature, range notes are highly sensitive to changes in interest rate. As of June 30, 2010, the ATU/IBEW and Salaried Plans held range notes with a fair value of $438,306. As of June 30, 2009, the ATU/IBEW and Salaried Plans held range notes with a fair value of $331,459.

MORTGAGE PASS-THROUGH SECURITIES

These securities are issued by Government Sponsored Enterprises (GSEs), which are a group of financial services corporations created by the United States Congress. The GSEs include: the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Association (Freddie Mac), and the Federal Home Loan Banks. Another institution that issues these securities is the Government National Mortgage Association (Ginnie Mae). These securities are highly sensitive to interest rate fluctuations because they are subject to early payment. In a period of declining interest rate, the resulting reduction in expected total cash flows affects the fair value of these securities.

ASSET-BACKED SECURITIES

Asset-backed securities generate a return based upon either the payment of interest or principal on obligations in an underlying pool. The relationship between interest rates and prepayments make the fair value highly sensitive to changes in interest rates.

CALLABLE BONDS

Although bonds are issued with clearly defined maturities, an issuer may be able to redeem, or call, a bond earlier than its maturity date. The Plans must then replace the called bond with a bond that may have a lower yield than the original bond. The call feature causes the fair value to be highly sensitive to changes in interest rates. As of June 30, 2010, the ATU/IBEW and Salaried Plans held callable bonds with a fair value of $8,340,096. As of June 30, 2009, the ATU/IBEW Plan and the Salaried Plan held callable bonds with a fair value of $7,503,733.

CREDIT RISK

Fixed income securities are subject to credit risk, which is the risk that a bond issuer or other counterparty to a debt instrument will not fulfill its obligation to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. The circumstances may arise due to a variety of factors such as financial weakness, bankruptcy, litigation and/or adverse political developments.

4. CASH AND INVESTMENTS (Continued)

A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond, and ultimately, to pay the principal. Credit quality is evaluated by one of the independent bond-rating agencies, for example Moody's Investors Services (Moody's). The lower the rating the greater the chance, in the rating agency's opinion, the bond issuer will default, or fail to meet their payment obligations. Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

Certain fixed income securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have credit risk.

For the fiscal years ending June 30, 2010 and 2009, the ATU/IBEW and Salaried Plans were in adherence with the credit risk provisions of the Statement of Investment Objectives and Policy Guidelines which require a minimum overall portfolio quality rating and a minimum credit rating at the time of purchase.

The following table provides information on the credit ratings and fair value associated with the ATU/IBEW and Salaried Plans' investments as of June 30, 2010

Investment Rating	Fair Value	Percentage of Portfolio
Not Applicable	$ 103,949,918	61.51%

CONCENTRATION OF CREDIT RISK

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer.

The investment policies of the ATU/IBEW and Salaried Plans state that the investment in the securities of a single issuer shall not exceed 5% (at cost) of the value of the portfolio. As of June 30, 2010 and 2009, the ATU/IBEW and Salaried Plans were not exposed to concentration of credit risk as the Plans did not have investments in a single issuer that exceeded 5% of the Plans' total investments.

4. CASH AND INVESTMENTS (Continued)

CUSTODIAL CREDIT RISK

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The ATU/IBEW and Salaried Plans' investment policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments. The ATU/IBEW and Salaried Plans' investment securities are not exposed to custodial credit risk because all securities are held by the ATU/IBEW and Salaried Plans' custodian bank in the District's name.

FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The ATU/IBEW and Salaried Plans' investment policy states international equity securities shall be comprised of American Depository Receipts (ADR) of non-U.S. companies, common stocks of non-U.S. companies, preferred stocks of non-U.S. companies, foreign convertible securities including debentures convertible to common stocks, and cash equivalents.

The following table provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars. The ATU/IBEW and Salaried Plans do have foreign currency deposits and investments which may be used for hedging purposes.

At June 30, 2010, the U.S. dollar balances organized by investment type and currency denominations for the ATU/IBEW and Salaried Plans are as follows:

	Foreign Currency	2010 U.S. Dollars
Cash	Euro Currency	$ 1,071
	Japanese Yen	47,461
Stocks	Euro Currency	5,387,371
	Japanese Yen	4,252,034
	New Zealand Dollar	51,528
	Pound Sterling	2,054,783
	Swiss Franc	616,012
	Total	$ 12,410,260

4. CASH AND INVESTMENTS (Continued)

At June 30, 2009, the U.S. dollar balances organized by investment type and currency denominations for the ATU/IBEW and Salaried Plans are as follows:

	Foreign Currency	2009 U.S. Dollars
Cash	Euro Currency	$ 18,252
	Japanese Yen	25,455
	Pound Sterling	38
Stocks	Euro Currency	5,635,508
	Japanese Yen	4,662,218
	New Zealand Dollar	65,079
	Pound Sterling	2,565,944
	Swiss Franc	403,947
	Total	$ 13,376,441

5. FUNDED STATUS AND METHOD

ATU/IBEW Plan

The annual required contributions for the ATU/IBEW Plan were determined as part of the July 1, 2008 and July 1, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) 8.00% investment rate of return (net of administrative expenses) and (b) projected salary increases of 3.76% to 12.82% for ATU/IBEW employees. Both (a) and (b) included an inflation component of 3.5%, and no cost of living adjustment. The actuarial value of assets was determined using the market value adjusted to reflect investment earnings greater than (or less than) the assumed rate over a five-year period. The ATU/IBEW Plan's unfunded actuarial accrued liabilities are being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization of the unfunded liability at June 30, 2009 was 26 years and 28 years at June 30, 2008.

The actuarial assumptions included in the July 1, 2009 actuarial valuation were consistent with the assumptions used for the July 1, 2008 and 2007 actuarial valuations.

Schedule of Funded Status

Actuarial Valuation Date	Actuarial Value of Plan Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Annual Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
7/1/2009	$ 134,537,202	$ 179,294,287	$ 44,757,085	75.04%	$ 43,626,223	102.59%

5. FUNDED STATUS AND METHOD (continued)

Salaried Plan

The annual required contributions for the Salaried Plan were determined as part of the July 1, 2008 and July 1, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) 8.00% investment rate of return (net of administrative expenses) and (b) projected salary increases of 3.5% to 15.9% for salaried employees. Both (a) and (b) included an inflation component of 3.5% and no cost of living adjustments. The actuarial value of assets was determined using the market value adjusted to reflect investment earnings greater than (or less than) the assumed rate over a five-year period. The Salaried Plan's unfunded actuarial accrued liabilities are being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization of the unfunded liability at June 30, 2009 is 26 years and 28 years at June 30, 2008.

The actuarial assumptions included in the July 1, 2009 actuarial valuation were consistent with the assumptions used for the July 1, 2008 and 2007 actuarial valuations.

Schedule of Funded Status

Actuarial Valuation Date	Actuarial Value of Plan Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Annual Covered Payroll (c)	UAAL as a percent of Covered Payroll ((b-a)/c)
7/1/2009	$50,164,727	$82,942,062	$32,777,335	60.48%	$22,601,919	145.02%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective and are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation. Actuarial methods and assumptions used include techniques designed to reduce short-term, volatility in actuarial accrued liabilities and the actuarial value of plan assets.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effect of legal or contractual funding limitations.
